THESIS ACCEPTANCE CERTIFICATE

Certified that final copy of MS/MPhil thesis written by Mr. **Zaighum Abbas** Registration No. **NUST0000172834** of **ASAB** has been vetted by undersigned, found complete in all aspects as per NUST Statutes/Regulations, is free of plagiarism, errors, and mistakes and is accepted as partial fulfillment for award of MS/MPhil degree. It is further certified that necessary amendments as pointed out by GEC members of the scholar have also been incorporated in the said thesis.

Declaration

I certify that this research work titled “The *In Vivo* Evaluation of Hypocholesterolemic Potential of Lactobacillus Strains of Indigenous Food Origin” is my own work. The work has not been presented elsewhere for assessment. The material that has been used from other sources it has been properly acknowledged / referred.

Zaighum Abbas

Dedicated to

Family, Friends & Well Wishers

Acknowledgements

All praise and glory to Allah Almighty, who is most gracious and merciful and on Him we depend for our guidance and sustenance due to His blessing today I am able to complete my thesis. I present Salam and reverence to the Holy Prophet Mohammad PBUH, a source of guidance for all the humanity for all times to come.

Firstly, I would like to express my sincere gratitude to my supervisor DR. Abdur Rahman for the continuous support of my master study and related research, for his patience, motivation, and immense knowledge. His guidance helped me in all the time of research and writing of this thesis. I could not have imagined having a better advisor and mentor for my master study.

Besides my advisor, I would like to thank the rest of my GC member: DR. Saadia Andleeb, DR. Amjad Ali, and Dr. Haider Khan for their insightful comments and encouragement, but also for the hard question which incited me to widen my research from various perspectives.

I want to thank my friends M Abubakar siddique, Sufyan, Abdullah, Waqar, Sajid, Nemat, Haris, Female Group members and specially my childhood friends in for the stimulating discussions, for the sleepless nights we were working together before deadlines, and for all the fun we have had in the last two years.

I am also obliged to all the friends and colleagues that were always available to help me in all the possible ways.

My special thanks to Dr. Tehseen Alam and all lab attendants who made it possible to work efficiently, providing us materials whenever required.

Last but not the least, I would like to thank my family: my Agha G, my mother and to my niece and sisters for supporting me spiritually throughout writing this thesis and my life in general.

Thanks all of you

Zaighum Abbas

Table of Contents

1. ABSTRACT.....	0
2. INTRODUCTION.....	1
2.1 HYPERCHOLESTEROLEMIA:.....	1
2.2 CAUSES OF HYPERCHOLESTEROLEMIA:	1
2.3 CARDIOVASCULAR DISEASES BY HYPERCHOLESTEROLEMIA:	1
2.4 PREVALENCE:	3
2.5 CONVENTIONAL TREATMENT:	4
2.6 ALTERNATIVE STRATEGY:	7
2.7 MECHANISM OF PROBIOTICS FOR CHOLESTEROL REDUCTION:	8
2.8 FUNCTIONAL FOODS & PROBIOTICS PRODUCTS:	9
3. OBJECTIVES:.....	11
4. LITERATURE REVIEW	12
4.1 HYPERCHOLESTEROLEMIA:.....	12
4.2 CONVENTIONAL TREATMENT:	14
4.3 PROBIOTICS:	14
4.3.1 <i>Taxonomy of Probiotics:</i>	16
4.3.2 <i>Probiotics Market:</i>	17
4.3.3 <i>Characteristics of an ideal probiotic candidate:</i>	18
4.3.4 <i>Acid and bile tolerance:</i>	18
4.3.5 <i>Resistance to phenol:</i>	18
4.3.6 <i>Survival and Colonization to the GIT:</i>	18

4.3.7 <i>Safety of the potential probiotics:</i>	20
4.4 EXOPOLYSACCHARIDES (EPS) PRODUCTION:	22
4.5 MECHANISM OF CHOLESTEROL REDUCTION:	22
4.5.1 <i>Cholesterol Assimilation by live cells:</i>	23
4.5.2 <i>Attachment to the cellular surfaces:</i>	23
4.5.3 <i>Conversion into Coprostanol:</i>	24
4.5.4 <i>Incorporation into cellular membranes:</i>	25
4.5.5 <i>Bile salt hydrolase (BSH) enzymatic deconjugation:</i>	26
5. MATERIALS AND METHODS	28
5.1 REAGENTS:	28
5.1.1 <i>Phosphate Buffer saline:</i>	28
5.1.2 <i>Mac Farnald Standards:</i>	28
5.1.3 <i>Rifampicin Solution:</i>	28
5.1.4 <i>MRS Broth and Agar:</i>	28
5.1.5 <i>Diet composition:</i>	29
5.2 IN-VITRO CHOLESTEROL EVALUATION TEST:.....	29
5.2.1 <i>Exo-polysaccharide production:</i>	29
5.2.2 <i>Capsule staining method:</i>	30
5.2.3 <i>Bile salt hydrolase Activity:</i>	30
5.2.4 <i>Cholesterol Assimilation By live cells:</i>	30
5.3 IN-VIVO SAFETY AND SURVIVAL ASSESSMENT OF THE POTENTIAL PROBIOTICS STRAINS:.	31
5.3.1 <i>Rifampicin tagging:</i>	31
5.3.2 <i>Animal model:</i>	31

5.3.3 <i>Probiotic Dosage:</i>	32
5.3.4 <i>Survival/Transit of isolates through GIT:</i>	32
5.3.5 <i>Safety Evaluation of the potential probiotics isolates:</i>	32
5.4 EVALUATION OF POTENTIAL ISOLATES ON PLASMA CHOLESTEROL:	32
5.4.1 <i>Animal Model:</i>	32
5.4.2 <i>Probiotic Dosage:</i>	33
5.4.3 <i>Feeding:</i>	33
5.4.4 <i>Cholesterol Analysis:</i>	33
6. RESULTS	34
6.1 ISOLATE HISTORY:	34
6.2 EXOPOLYSACCHARIDES PRODUCTION:	34
6.2.1 <i>Assessment of EPS probiotics strains:</i>	34
6.3 BILE SALT HYDROLASE ACTIVITY:	34
6.4 IN-VITRO CHOLESTEROL ASSIMILATION OF THE POTENTIAL PROBIOTICS ISOLATES:	35
6.5 IN-VIVO SURVIVAL OF THE POTENTIAL STRAINS:	36
6.5.1 <i>Survival through the GIT:</i>	36
6.5.2 <i>In vivo safety & colonization of the strains:</i>	37
6.5.3 <i>Impact of isolates on the average weight gain of the rats:</i>	38
6.6 IN VIVO CHOLESTEROL REDUCTION ASSAY:.....	39
6.6.1 <i>Impact of potential probiotic strain with HFD on the weight gain of rats:.....</i>	42
6.6.2 <i>Anatomical examination of rats' organs for the fat content:.....</i>	42
7. DISCUSSION	45
7.1 SAFETY, SURVIVAL AND COLONIZATION IN GIT OF RAT:	45

7.2 <i>IN VITRO</i> CHOLESTEROL ASSIMILATION ASSAY:.....	47
7.3 IMPACT OF POTENTIAL STRAINS ON PLASMA CHOLESTEROL:	49
8. CONCLUSION & FUTURE ASPECTS.....	50
9. REFERENCE.....	51
